

Household Battery Tester

Test Before You Replace!

Strong flexible plastic strip.

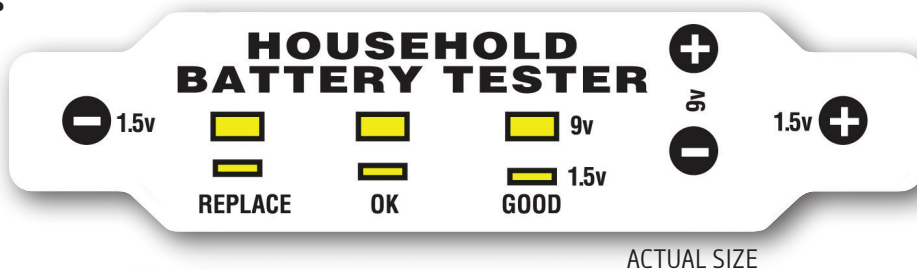

Simply place the battery terminals where indicated for 15 seconds and read display. Strip will flex to accommodate different battery sizes.

Features

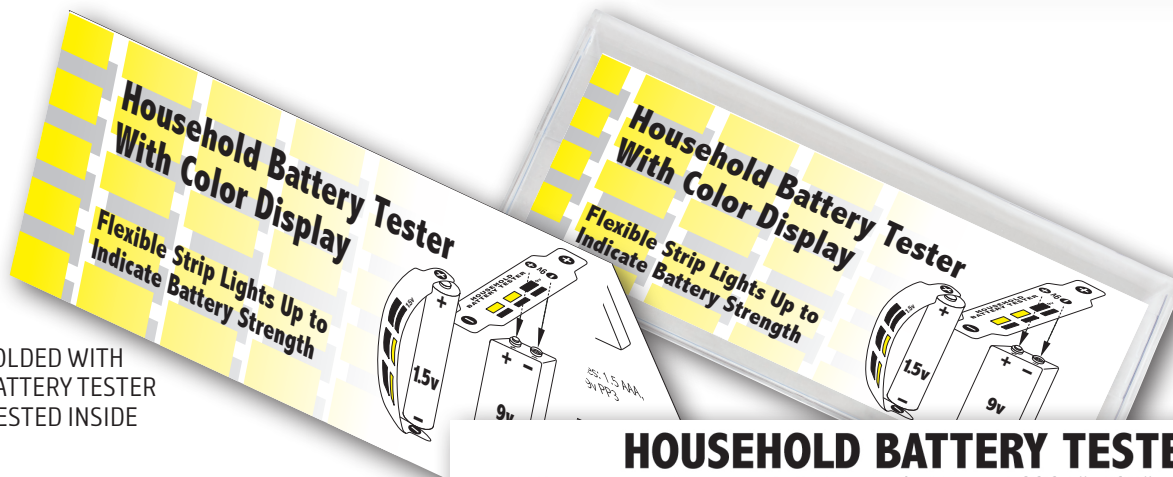

- Battery Status lights up as an easy-to-read yellow color display, indicating battery strength
- Test 1.5v, AAA, AA, C, D, & 9v batteries
- Clear vinyl pouch with closing strap
- Tester nested within folded instructions for use
- Find dead batteries fast – will last for years

Perfect for:

- **Toolbox**
- **Kitchen**
- **Workshop**
- **Battery Drawer**
- **Camera Bag**

ACTUAL SIZE

FOLDED WITH BATTERY TESTER NESTED INSIDE

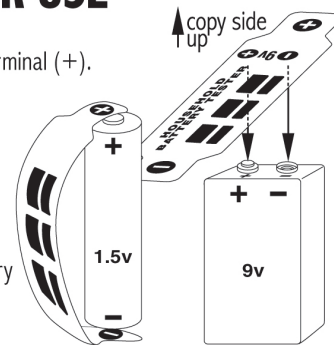

HOUSEHOLD BATTERY TESTER

Yellow appears in rectangle indicating battery is "GOOD", "OK", or "REPLACE".

INSTRUCTIONS FOR USE

1. Hold tester with copy side up and circuit side facing battery.
2. Touch and press positive end of battery tester to positive terminal (+).
3. At the same time, wrap, touch and press negative end of battery tester to negative terminal (-).
4. Maintain constant contact with tester for 10-15 seconds.
5. Read 1.5 or 9v indicator:

REPLACE-Replace battery. **OK**-Battery usable. **GOOD**-New.
NOTE: Battery Tester is activated by the battery being checked. Keep test times as short as possible to avoid unnecessary battery drain.
