

# IIIP REUSABLE PUPPY BATH THERMOMETER CARD

## Child Bath Time Safety is a Priority!

Safest temperature for bathing is 100°F.  
American Burn Association

Thank you for choosing me, "Your Bathtime Puppy". I try to help your mommy and daddy make sure every bath time is safe and warm.

There are 3 indicators **COOL, OK, HOT**. Adjust water temp so that "OK" is light green. If no indicator lights, water is too hot or too cold.

Always check with your hand before placing the child in the tub.

*Your bathtime friend!*

This card is intended for use as a guide only and the manufacturers hold no responsibility for the actions of anyone based on the readings given
